SHELLSCAPES

Signature Shellscapes

Signature Shellscapes feature white seashells meticulously arranged on a classic linen background, showcasing a timeless interplay of texture and craftsmanship.

Handcrafted in Florida, these pieces offer a neutral palette, making them a timeless addition to any collection.

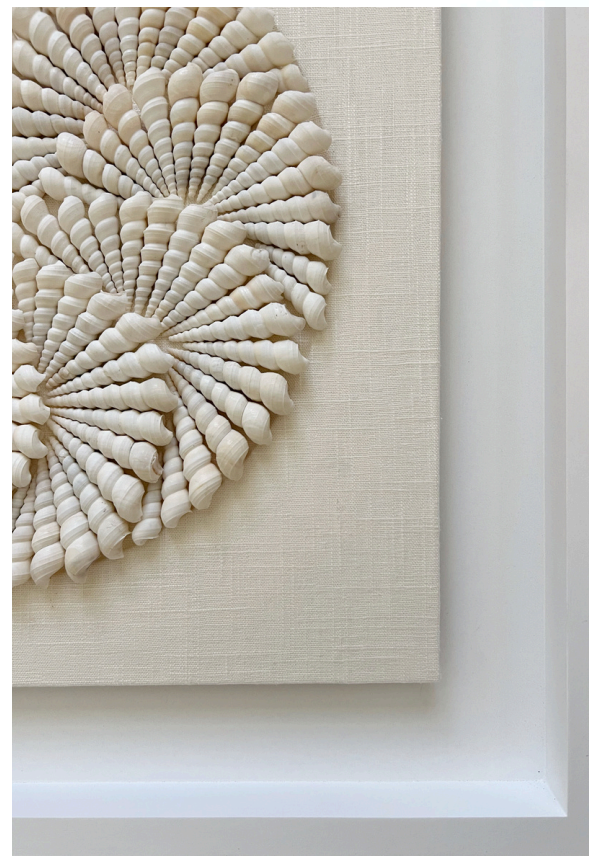

Designs are available in two compositions: a circular layout or a bordered style, allowing for flexibility to match a variety of aesthetic preferences.

Signature Shellscapes Framing

Signature Shellscapes are presented with Float Mount Framing, creating the illusion of the artwork floating within its borders for a sleek, modern look. The visible edges cast subtle shadows, enhancing depth and dimension. This permanent, glass-free design ensures a clean, uninterrupted view of the piece.

Each frame is handmade and fully customizable.
